

Millat Tractors Limited has formally joined hands with IFS Research & Development Sri Lanka as business partners to launch their Enterprise Resource Planning (ERP) services and Products in Pakistan.

A ceremony in this regard was held at Millat Group Office in Lahore on April 3, 2017. Chief Executive, Millat Tractors Limited, Mr. S M Irfan Aqueel and Country Director Pakistan, IFS Research & Development Pvt. Limited, Mr. Poorna Bandara signed the partnership agreement on behalf of their respective companies.

The signing ceremony was witnessed by Mr. Sikandar Mustafa Khan, Chairman Millat Group, Directors of Millat Group along with the Chief Executives of the group companies.

IFS has been recognized by Gartner for the 4th consecutive year as a global leader in mid-market ERP and with the release of Application 9, Gartner has rated IFS as the number 1 in terms of adopting modern technology. IFS ERP provides analytics and decision supporting tools for increased visibility and intelligent decision making.

It may be noted that Millat Tractors is using IFS ERP since 2009 and possesses a well trained and experienced human resource for IFS ERP implementation and its support services. Initially the IFS ERP solution will be extended to other Millat Group Companies. Later on, Millat will expand the IFS footprint in Pakistan with implementations in the manufacturing sector with full support from IFS Sri Lanka.

Through this partnership both the companies are committed to work together in bringing on board many leading Pakistani enterprises enabling them to reap the benefits of a world-renowned ERP system.
