

## MTL SETS UP A STALL AT MONSANTO EXHIBITION, MANGA MANDI

MTL participated, by setting up a stall, in Monsanto exhibition held at Manga Mandi on 30<sup>th</sup> . 31<sup>st</sup> October, 2017. Every year, this event is arranged by M/s Monsanto Pakistan. Around 500 - 600 progressive farmers attended the exhibition belonging from Okara, Sahiwal, Pakpattan, Kasur, Burewala, Rajana and other peripheral districts. The objective of the exhibition was to showcase the latest products and farm practices related to agro industry for the benefit of the farmers. Millat's maize fodder harvesting machines, rice puddler and newly developed MB Plough (04 furrows) along with the tractors were displayed at our stall. MTL stall received an overwhelming response from the farmers who appreciated the efforts of the company for farm mechanization. One to one interaction with the farmers also helped for their feedback and suggestions towards company products.
