# FUTURE OUTLOOK

# Future outlook

- ❑ MTL is looking forward for increase in exports and develop the export market keeping in view the domestic decreased demand of tractors.
- ❑ Ease of doing business and timely release of sales tax refunds remain key hurdles in business growth. Currently MTL has Sales tax refund claims of. **Rs. 5.7 billions** as at June 30<sup>th</sup> , 2022.
- ❑ Sustainability and eco-friendly business measures are need of the hour to save the agriculture sector and the country as a whole.
- ❑ Post flood enhancement in construction activity for rehabilitation of domestic, agricultural and commercial lands will boost Tractor demand from 2022-23 3<sup>rd</sup> quarter onwards.
- ❑ Sales tax on tractors is now “**Exempted**”, resulting in high input costs and increased tractor prices that will impact the sales as entire GST on the tractor input is now part of cost and not claimable from Government.
- ❑ Impact of Govt. policies and farmer package may help the farmer to invest in farm mechanization and rehabilitation. All depends how quickly the benefits are transmitted to farming community.
